

GPR Solutions Limited

Capabilities Statement 2016 v.1

GPR Solutions Limited. A New Zealand owned and operated company specializing in Ground Penetrating Radar systems.

GPR Solutions Limited

Capabilities Statement 2016 v.1

GPR Solutions Limited:

Providing New Zealand
the most technologically
advanced Ground
Penetrating Radar
instrumentation and
expertise in the industry.

Company Overview:

GPR Solutions Limited is a New Zealand owned and operated company specializing in providing Ground Penetrating Radar (GPR) Sales & Support, Rentals, High-Level Consulting, Servicing and Training to industries and sectors such as, but not limited to: construction, government, universities, mining and major infrastructure.

The companies Director established GPR Solutions Limited in 2016 after spending an extensive period of time conducting structural, geophysical and asset detection projects throughout Australasia covering all aspects of GPR investigations.

GPR Solutions focuses directly on Ground Penetrating Radar (GPR) instrumentation & accessories for surveying both structural and geophysical elements. GPR Solutions Limited also works in closely with Mala GPR Australia which allows the company to offer the most extensive and diverse range of Ground Penetrating Radar (GPR) systems and expertise not offered by other New Zealand establishments.

GPR Solutions prides itself on our professionalism, expertise and knowledge in the industry we cater to. The products and services GPR Solutions Limited offers to our clients is at the forefront of the technologies capabilities and is actively monitored and researched in order to provide our clients with the most comprehensive products, results and recommendations to their specific project requirements.

Based in Christchurch we operate nationwide and have the capability to provide Ground Penetrating Radar for, but not limited to:

Utility Locating

Exploration & Mining

Geotechnical Assessments

Environmental Surveys

Pavement Assessment

Concrete Slab Scanning

Forensic Investigations

Archaeological Surveys

Company Objective:

To establish GPR Solutions Limited as industry leaders in Ground Penetrating Radar throughout New Zealand and essentially become the 'Go To' company when it comes to Ground Penetrating Radar Sales & Support, Rental Systems, High-Level Consulting, Servicing and Training.

We aim to provide a service to our clients unparalleled by other establishments and work in closely with our clients to ensure they receive the best possible result from the systems and high-level consultancy GPR Solutions provides.

Our Point of Difference:

Our team consists of several Geophysicists and experienced GPR technicians whose combined experience and knowledge extends across projects conducted worldwide. We have available the southern hemispheres largest pool of GPR systems allowing us to cover all aspects of Ground Penetrating Radar investigations.

We can provide advice on the level of inspection that may be required for any specific Ground Penetrating Radar project and can advise our clients on what Ground Penetrating Radar system/s will be most suitable for their requirements.

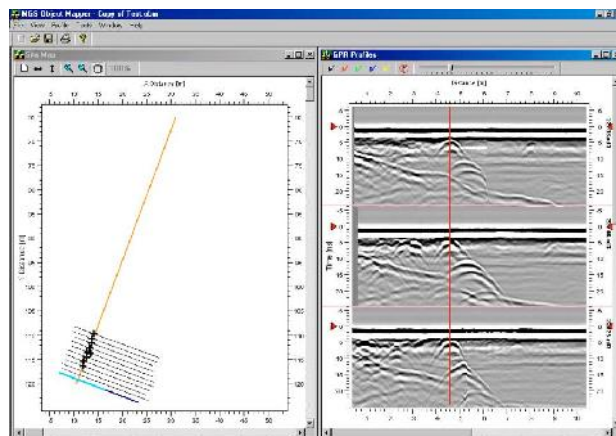

GPR Systems:

GPR Solutions Limited is the authorized reseller of Mala Ground Penetrating Radar instrumentation throughout New Zealand. As a result, GPR Solutions can provide instrumentation not typically available in New Zealand along with experienced, competent operators & geophysicists to assist with our clients projects. Some of the instrumentation we have for sale, rental and consultancy projects includes.

- Concrete Scanning Instrumentation
- Cart Mounted Utility Locating Systems
- GPS Integration Software for GPR Systems
- 3D Mapping Systems
- Data Processing Software
- Vehicle Mounted Road and Pavement Assessment Instrumentation
