

Ground & Structural Radar Systems (GPR)

GPR Solutions Ltd provides industry leading MALÅ Ground Penetrating Radar (GPR) instrumentation for Infrastructure & Maintenance Projects, Structural & Subsurface Locating & Assessments, As-Built Verification.

- Utility Detection GPR
- Concrete Scanning GPR
- Rental Systems
- Training
- Sales & Support
- Consulting

Our experience in the industry allows us to provide advice on the level of service or inspection required or advise on the most suitable GPR system/s to ensure the best possible outcome.

Members of: **NULCA:** National Utility Locating Contractors Association of Australia & New Zealand
IPENZ: Institution of Professional Engineers New Zealand
SCIRT: Stronger Christchurch Infrastructure Rebuild Team

Authorised New Zealand reseller for MALÅ GPR systems and Onsite Report Software

Structural Assessments Using GPR

MALÅ CX12 Concrete Scanning System

Applications:

- EQC Assessments & Remediation
- Structural Investigations
- Reinforcing Mapping
- Post-Tension Cable Mapping
- Depth / Thickness of Concrete
- Void Detection

Subsurface Detection Using GPR

MALÅ Easy Locator HDR & PRO HDR Systems

Applications:

- Utility Detection & Mapping (PVC, Concrete, HDPE & Concrete Pipes)
- Underground Storage Tank (UST) Locating
- Irrigation Mapping
- Forensic Investigations
- Depth to Bedrock or Subsurface Layers
- Buried Structure Mapping
